# CloudControl QuickStart Service

## Service overview

Entrust CloudControl Quickstart Service provides an Entrust Professional Services team member for the deployment and configuration of five CloudControl features on a smaller scale – delivered over five contiguous days either remotely or on-site.

## Approach

Our approach is informed by years of experience installing, configuring, and deploying CloudControl. This includes:

- Validation of design
- Best practice product configuration
- Knowledge transfer and discussion of CloudControl key features, function, and operation
- Troubleshooting tips

## Scope

This service will deploy and configure the following CloudControl features:

- 3-5 role-based access control policies
- 3-5 secondary approval checks
- One compliance template (HIPAA, PCI, NIST 800-53, etc.)
- Multi-factor authentication (with Radius or Ping Federate)
- Root password vaulting

Knowledge transfer on logging and the admin dashboard is also included. This service is limited to 25 hosts, one CloudControl instance (high-availability pair), one vCenter, and one NSX manager. Services will be delivered either remotely or on-site in one location, with installation in either lab or production environment.

## BENEFITS

- **Quick time-to-value.** Our consultants' product expertise accelerates deployment
- **Deployment aligned to industry best practices.** You gain the benefits of our extensive knowledge base of product optimizations and optimal configurations
- **Mitigation of potential installation issues.** We move quickly past implementation roadblocks and work seamlessly with product support on your behalf
- **Knowledge transfer on functionality and troubleshooting.** Your team gains experience with CloudControl quickly and effectively with personalized knowledge transfer from our consultants
